

Change for the better!

The Mara® Jet DI-2TE is the dedicated solution to get the best prints for all graphic and signage applications from your TrueVIS printer. Benefits like the brilliant and durable prints come across with a very good machine compatibility and maintenance friendliness.

Mara® Jet DI-2TE was especially developed for Roland® printers which are operated in the TrueVIS™ Element2 Ink configuration.

Mara® Jet DI-2TE arrives ready to use in a machine compatible ink pouch, including a chip and it does not require any hardware or software changes.

The DI-2TE substrate range includes

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- textiles, suitable papers

Characteristics	Mara® Jet DI-2TE
Plug & Print compatibility	+
